WorldCall Video on Demand

WorldCall Telecom Ltd.

WorldCall Telecom Limited (WTL), an Oman Telecommunications (Omantel) company, is the most reliable and unique telecom and multimedia service provider in Pakistan. The company has grown into diversified businesses with HFC network, providing an astounding quad-play with a range of services designed to serve the needs of the local market. WTL has been divided into three major service categories i.e. Data, Entertainment and Voice. It is one of the largest LDI and WLL operators serving as the backbone of a number of corporate entities around the nation. Today, WorldCall has become synonymous with commitment, passion, dependability and innovation in Pakistan.

Entertainment

WorldCall Cable TV

The absolute amalgam of drama, thriller, action, romance, news and documentaries -WorldCall Cable TV has been providing its viewers with a wide assortment of satellite channels and latest movies to satisfy their infotainment needs. WorldCall has been providing dedicated value-added services to its customers, making a difference to cable viewing. With in-house channels, WorldCall regularly features movies to fulfill various choices. Be it movies, sitcoms, latest serials or current affairs, subscribers have a wide palette to choose from.

Entertainment

WorldCall Digital TV

Unparallel quality of digital picture and sound - WorldCall Digital TV (DTV) reinvents the television entertainment experience with exceptional viewing especially in today's world of LCDs and Plasma TVs. WorldCall DTV ensures sharper images, more vibrant colors and precision of picture quality that you will find nowhere else.

Once you have the DTV's digital receiver and remote control, you can access an array of on-screen entertainment services with un-matched quality.

WorldCall Digital TV features:

- Superior picture quality
- Crisp and clear stereo sound
- 60 plus channels
- On-screen channel guide
- Parental control
- 24/7 customer support

Entertainment

WorldCall Video on Demand

A cinematic addition to your on-screen entertainment – WorldCall Video on Demand (VoD) is an interactive video and music library that enables you to choose from a list of available titles allowing absolute control with play-back options.

Now you don't need to go to DVD shop, just get WorldCall VoD to access more than 600 hours of uninterrupted fun and excitement. This once again is a unique service and WorldCall has pioneered in offering VoD in Pakistan.

Voice

WorldCall Wireless Phone

WorldCall Wireless Phone offers hassle-free wireless telephone services. More and more operators are looking to wireless technology, rapidly enabling thousands of new subscribers with high quality telecom services at reasonable prices.
